2. Newconnection.html

3.connections.html

4. Connection.html

Explanation of additional features, if any.

- Added button designs.
- Created a form for newConnection.html
- Used <div> tags to separate different sections of a page.

Explanation of status, stopping point, and issues if incomplete:

- All the issues faced were quickly resolved. The prototype is developed completely.

Discuss the easy and challenging parts of the assignment. How did you overcome all or some of the challenges?

- Added <meta> tag to remove an error.
- Added alt to <img> for the description of the image.
